ONI hit the ground running earlier this year with the release of their new progressive metal anthem "Eternal Recurrence", showcasing their undeniable technical talent. Chaotic time signatures, blazing solos and heavy grooves (with the unique inclusion of "xylo-synth"), stand out in the lead single cut from their upcoming full-length album, ***Ironshore***, scheduled to hit stores this fall.

A music video for "Eternal Recurrence", directed by Abraham Roofeh and filmed in vocalist Jake Oni's home locale of the Cayman Islands, was released this summer. Watch the video here: <https://youtu.be/xnEqo4EvXwQ>

Formed in 2014, **ONI** mastermind Jake Oni's initial vision for the band was "to be the band he never got to see". One that was deeply rooted in progressive metal but that had a feel all of its own, one that would rise above a genre that continues to churn out new groups with a similar sound. **ONI's** upcoming album ***Ironshore*** is packed full of contrasts and contradictions, grace and violence, and with the band disinterested in churning out endless soundalikes, each has a distinct character of its own - or more accurately characters of its own, since they refuse to limit themselves to a single mood or tone.

With Jake Oni handling vocal duties, Martin Andres and Brandon White on guitar, Chase Bryant on bass and Joe Greulich on drums, they are also perhaps the first metal band to feature a xylo-synth player, in the form of Johnny D, which adds an interesting and intriguing dynamic.

Stay tuned for much more coming from **ONI** in anticipation of their upcoming album release this fall.
